Art Unit: 2621

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. C. Jablon on 5/23/06.

The application has been amended as follows:

In the Title:

After "Decoder," --for Determining Interframe Motion-- has been inserted.

In the Claims:

Claim 1, line 18, "said" has been deleted.

2. The following is an examiner's statement of reasons for allowance: Claims 1 and 2 are considered allowable over the prior art because none of the references of record alone or in combination suggest, disclose, or teach an image signal decoder comprising a variable length decoding section; an interframe motion determination section for storing motion vector information, and determining a magnitude of an interframe motion based on a distribution of the motion vector information, when determining that the interframe motion is larger than a predetermined level, suspend the decoding; an inverse quantization section; an inverse DCT; a motion compensation section; and a frame buffer all together as claimed. The closest prior art, Kurobe et al (EP 0 935 396)

A2) discloses a conventional image signal decoder, either singularly or in combination, fails to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Y. Lee whose telephone number is (571) 272-7334.

The examiner can normally be reached on (571) 272-7334.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Groody can be reached on (571) 272-7950. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
